

Personal Biography of
Shannon Scott

The first nine years of my life I lived on the family farm near Southey before moving to Regina. I currently still live in Regina with my husband Nelson. With not being blessed with children, our life has pretty much revolved around our welding business for the last 26 years - NLS Welding & Contracting Inc. When we do have any down time it is spent golfing, ATVing, scuba diving, skiing and of course snowmobiling with family and friends.

Most of our snowmobiling is done up and around Good Spirit Provincial Park where we are members of the Yorkton Sno-Riders and participate in helping out the club around the park as much as possible. I have also participated in a couple of three and five day trips throughout Saskatchewan that has given me the opportunity to check out the great trail systems our province has.

I have been involved with Prairie Women on Snowmobiles since 2005. Prairie Women On Snowmobiles is a non-profit club consisting of dedicated women who work together to raise awareness and funds for Breast Cancer Research for the Canadian Cancer Society, while at the same time promoting the recreation of snowmobiling throughout Saskatchewan. I became a member in 2005, a core-rider in 2006 and currently hold the treasurer position on the executive since 2007. I strongly believe that one day there will be a cure for this disease that has affected so many lives.

My other passion is the welfare of children. I have been on the committee along with the Hospitals of Regina Foundation for a golf tournament called Pipeline of Dreams since its conception in 2006. Proceeds raised from the golf tournament go towards enhancing pediatric services provided in Regina's hospitals.

I am looking forward to working with everyone associated with the Saskatchewan Snowmobile Association.
